#### CLAIMS HE HAD SEEN LIQUOR DELIVERED

"Drunkenness So Prevalent  
That They Had to  
Wheelbarrow Drunks  
Away," Asserts Witness.

With Eugene R. Black, counsel for the citizens committee in the fourth civil investigation of the Atlanta police having his rebuttal inquiry woke up to its pristine liveliness last night when E. M. Maffett, superintendent of stock of the Atlanta Ice and Coal corporation, brought direct charges against the entire police department including Chief Beavers and Chief Poole of permitting the open operations of Nat McWhorter and his associates bootleggers within a block and a half of the police station for a period of more than two years.

Maffett, pushed by questions, declared that from his place of business on the same block he had seen detectives Payne and West in the place two or three times a week; had seen other detectives talking with negroes outside of the resort while whisky patrons were going in and out of the place in streams; had seen a consignment of 45 gallons delivered there at one time with the officer on the beat nearby "and his eyes were not shut as far as I could see," explained the witness.

**No Action Taken.**  
Chief Poole, he asserted, was always too busy to listen to his complaints about the condition and though he gave Chief Beavers the names of all the negro violators, the place had continued in business without any noticeable interruption.

On one occasion, he said, when Nat McWhorter had been arrested, he was back at the resort in ten or fifteen minutes and selling liquor at the old stand.

Drunkenness in the neighborhood, he described as so prevalent "that they'd have to wheelbarrow the drunks away when they got too thick." It was worse than any condition he had ever seen in the days of the open saloon. "Why some times," said Maffett, "the drunks would be so thick around there on Saturdays and Sundays that the negroes would have to roll the men back in an alley to keep them from obstructing the sidewalk and I've seen fellows come out of the place early on Sunday mornings that looked like they had been sleeping under the house."

**Blind Tigers, Were Bold.**  
He declared that the negroes were so bold in selling whisky there that he feared for his life were he to appear as a witness against them, but had furnished the police with names and the methods used in making deliveries. The only raids, he said, that he ever saw on the place were on infrequent occasions when "officers would prow around there like they hunting for a snake and find nothing though the whisky deliveries had been made only a few minutes before."

"I finally got disgusted when I saw that the police would do nothing when I knew that they could have remedied the situation just by going in and nailing up that ne-

#### PARKS DEFEATS MISS FISHBACK FOR TAX PLACE

William H. Parks, of 260 St. Charles avenue, Wednesday afternoon was elected by the tax committee of council as a clerk in the office of tax collector, to succeed B. M. Blackburn, resigning. Parks was elected by one majority over Miss Mary Fishback, who formerly held the position, but was displaced by the committee and Mr. Blackburn elected. There was a vigorous protest by women's organizations when Miss Fishback was ousted. It was claimed that she was doing efficient work, and was deposited merely in order that the place might be given to a man.

Miss Fishback was nominated by Alderman J. R. Seawright, who voted against retaining her at the meeting, when Blackburn was elected. Wednesday she received his vote and the vote of Councilman Alvin Richards. Those who voted for Parks were Councilman C. M. Murphy, chairman; Councilman W. A. Sims and Councilman J. A. Couch. There were more than a dozen applicants for the position.

The committee refused to grant a request of George M. Traylor that his realty assessment be reduced. Certain property had been assessed by the tax assessors at \$500 a front foot, and Mr. Traylor appealed to the committee, claiming that the figure was excessive. A motion to order a reduction was defeated, three to two.

#### MISS ISMA DOOLY DIES WEDNESDAY

Funeral Services Will Be  
Conducted Friday Morn-  
ing From Sacred Heart  
Church.

Miss Isma Dooly, for twenty-eight years connected with the women's department of The Constitution and for most of that time in charge of it, died Wednesday afternoon at 12:30 at St. Joseph's infirmary after a lingering illness of three months. She was attacked while at work at her desk in the Constitution building, Saturday, February 12. Dr. W. S. Elkin was immediately summoned and the trouble was diagnosed as angina pectoris.

The funeral services of Miss Dooly will be conducted Friday morning at 10 o'clock from the Sacred Heart church, Rev. Father A. Horton officiating. The pallbearers will be: Clark Howell, Sr., J. K. Ottley, Major Graham L. Johnson, W. E. Chapin, Francis W. Clarke, Hughes Spalding, Dr. W. S. Elkin, John E. Murphy, J. W. Conway, James Alexander, Evelyn Harris and John D. Little. Interment will be in Oakland cemetery. The body of Miss Dooly has been removed to the family apartments in the Georgian Terrace.

Showed Slight Improvement.

At intervals during the past three months Miss Dooly showed slight improvement, but never at any time has she been entirely rational. The trouble was that the heart refused to supply either the brain or other organs with the necessary amount of blood to enable them to properly function. Her heart was fatally struck on February 12 and it never resumed its normal operation. The lungs and other organs became inflamed a few days ago and her condition was considered hopeless when this complication set in.

Dr. Elkin stated yesterday that when he was first called to her he did not believe that she would live to reach her home at the Georgian Terrace and declared that her fight for life was a race with death. She had been in the hospital for some time before she was first stricken. Dr. Elkin called Dr. Bates Block and Dr. Stewart Roberts in consultation and these three physicians were in attendance continuously until her death.

**Hundreds Call.**  
Since having been stricken Miss Dooly was not permitted to see anyone except the members of her immediate family. Hundreds have called at the hospital during her illness to make inquiry about her and it is stated that many of the floral tributes as well as her family.

The end came peacefully shortly after noon with the members of her family present.

She was the adopted daughter of Mrs. Meta Dooly and the late Martin H. Dooly, leaving a niece of Mrs. Dooly with whom she lived since infancy, and who survives her.

Miss Louise Dooly, Miss Lillian Flynn and Mrs. Clyde Haynes, of Atlanta, are her sisters, and she leaves one brother, Harry Flynn, of Atlanta.

The death of Miss Dooly marks the passage of one of the south's foremost women. Known nationwide as being among the most prominent of American newspaper women, she had extended the scope of her influence far into the civic and public life of southern women and had done much to create a new and broader field in women's affairs.

During the twenty-eight years

Official Declares Terms

BY HUDSON HAWLEY,  
United News Staff Correspondent.  
Paris, May 11.—France wants General George W. Goethals to come to this country, to make a survey of her devastated regions, and to create a plan for their reconstruction.

Loucheur, minister of liberated regions, revealed this fact Wednesday, when he met the foreign correspondents to discuss the reparations and reconstruction situation.

General Goethals, Loucheur declared, had been approached through the French ambassador at Washington, and hope is held out that he will accept the task.

"I consider General Goethals the most remarkable engineer in the world," Loucheur said. "The invitation to him was one of my first acts upon assuming office. The letter reached Goethals when he was sick. He replied modestly that we had plenty of French engineers who were competent, but before coming he wanted to know just what he might be called upon to do. I received his reply on the eve of the London conference and have not had time to answer. But I shall write shortly, and I hope he will come. His letter expressed the most profound admiration for France, and was very, very gratifying."

**How to Proceed.**  
Regarding the decisions of the reparations commission, Loucheur declared that they did not go far enough. "But we bow to their verdict," he said, "which is the first valid financial scheme of its kind."

The minister was non-committal about the proposed Ruhr occupation, but said that France was ready

#### NO DIXIE OFFICES TO GO TO NEGROES

Henry Lincoln Johnson  
Will Be Given Federal  
Post in Some Other  
State.

BY JAMES A. HOLLOMAN,  
Constitution Bureau.  
Raleigh Hotel.

Washington, D. C., May 10.—(By Constitution Leased Wire).—At a meeting of the Sloop sub-committee of the republican national committee today looking to a recognition of southern representation at the republican national conventions in the future, it was agreed that no negroes shall be appointed to federal offices in the south. It was also agreed that Henry Lincoln Johnson, national committeeman from Georgia, should be given a federal position outside of Georgia, but not within that state; that southern representation in congress and in republican national conventions shall not be cut down, but that the party shall be built up to meet present representations, and that presidential postmasters now in office shall hold their positions until their commissions shall have expired and until their successors shall have been appointed under the rule of the president, issued yesterday.

At the conference there were representatives of every faction in Georgia, including Johnson, Goree, Scott, Phillips, Greer and others, all contending for mastery in federal patronage control. National Chairman Will Hays presided, and his words to the conference were supposed to be, as indeed accepted, as the official word of the white house.

Two outstanding features of today's developments are:

**Postal Developments.**  
First, that presidential postmasters will not be removed from office without cause until their terms of office have expired. That was made clear in the executive order, issued by President Harding last

#### Madame Curie Brings Message of Hope To Cancer Sufferers

New York, May 11.—A message of hope and fortitude for those afflicted with cancer was brought to America today by Madame Marie Curie, discoverer of radium, and the world's foremost woman scientist. She arrived on the Olympic with her two daughters to receive from President Harding, in behalf of the women of the United States, a gramme of radium, which she said was desired for use in cancer research. Asked if radium was actually a cure, Madame Curie replied:

"Yes, it is. That is, if it is applied properly."

as New Possibility—Is  
Backed by Penrose.

#### TARIFF COMMISSION AID OFFER IGNORED

Manufacturers Seem Cer-  
tain to Have Way in  
Fixing of Duties—Scant

BY WILLIAM ALLEN WHITE,  
Written for the United News.

(Copyright, 1921, by United News.)  
Washington, D. C., May 11.—Schedule "K" is trying to come back. Not our old friend of the Payne-Aldrich bill? The same. Surely not the schedule "K" that put the tariff administration into the discard? The very same.

Schedule "K" the wool schedule with the good old joker which assumes that it takes four pounds of greasy wool to make two pounds and a half of clean wool, is heading straight for the new tariff bill, and unless there is a stiff fight against it in the committee and on the floor, schedule "K" will be reported from the house to the senate, where Senator Penrose has a royal welcome for it.

But schedule "K" is not the only tariff schedule written by the interests affected that is trying to get into the new tariff bill or organized industries of the country are represented in Washington and the representatives of these interests are having more to say about the tariff bill than is the tariff commission, which is drawing \$300,000 every biennium for the express purpose of collecting and assembling facts about the tariff for the congressional committees.

Truth Not Wanted.

Not that the tariff commission lacks facts; not that the facts are questioned; not that congress cannot get the truth from these facts, but the truth seems to be what certain congressional leaders do not want. Says Mr. Forney, of the house committee, to his own "experts," as he turns over to them the privilege seekers:

"Boys, give them what they want, as near as you can."

Says Senator Penrose, chairman of the senate finance committee, quoted by the New York Journal of Commerce:

"I believe in the abolition of all the automatic mushroom boards—all Wilson boards—while arose during the war."

Last month, April 18 to 26, the secretary of the tariff commission, asked the tariff commissioners to attend the hearings on the emergency tariff bill. The tariff commissioners sat in the Penrose committee ante-room for several days. Then, according to the official hearings, page 216, Senator Penrose said:

**Dismissal Committee.**

"The hearings will close and the committee will hold an executive session tomorrow and will be glad to have such of the representatives of the manufacturers and exporters as are convenient and available. The members of the tariff commission are thanked for their courtesy and word will be conveyed to them if their presence is necessary."

That was the cool and final way of dismissing the commission. It was not called again by Penrose in a hearing on the emergency tariff bill.

And, if Penrose has his way, it will not be used in making the new tariff. In the meantime Mr. Hoobs, of the Arlington mills; John P. Wood, a Philadelphia manufacturer, and John R. Gundy, a close political friend of Senator Penrose, have talked things over informally with the house sub-committee in charge

#### DEMOCRATIC LEADERS IN OFFENSIVE ON BILL

Passes by Vote of 63 to  
28, Seven Democrats  
Voting With Republi-  
cans for Adoption.

Washington, May 11.—The senate today passed the emergency tariff and anti-dumping bill, retaining all amendments recommended by the finance committee, but rejecting those individually proposed.

The vote was 63 to 28. Seven democrats, Senators Broussard, Louisiana; Jones, New Mexico; Kendrick, Wyoming; Myers, Montana; Pittman, Nevada; Randall, Louisiana; and Sheppard, Texas, voted with the republicans in passing the bill. Another democrat, Ashurst, Arizona, who was absent was announced as a supporter. Only one republican, Senator Moses, of New Hampshire, voted against the bill.

As passed by the senate the measure differs radically from the form in which it was passed by the house early in the extra session and now in conference. The features of the bill were kept intact, the anti-dumping and currency revaluation sections being entirely rewritten and the provision added for continuation of the war-time restrictions on dyes.

**Attack by Democrats.**

Action by the senate came at the end of five hours of driving attack by democratic leaders. The latter, however, were not alone in their attempts to amend the measure for several republicans made efforts to broaden the scope, only to see their amendments meet the same fate as those offered from the minority side of the chamber. All were swept

#### COUNTY PLANS AID FOR CITY MARKET

If Injunction Is Granted,  
Will Appeal to Legisla-  
ture for Right to Give  
the Money.

A legislative amendment allowing the county commissioners of Fulton to make an appropriation of \$45,000 for a municipal market in Atlanta will be asked, if the temporary injunction now restraining the appropriation is made permanent by the courts, according to action of the commissioners at their meeting Wednesday.

This action came after Irving Thomas had gone before the commission and asked them to wage a vigorous fight against the permanency of the injunction through further court action of its proposals. This was the regular monthly meeting of the board.

Commissioner Paul Etheridge said that the board had appropriated the money for the market and that the county attorney would represent the county when the injunction case, brought by twenty truck growers, came up for trial, but he pointed out that the case would be tried on its legal merits by any judge in the court and there were no other steps for the commissioners to take.

Ben R. Padgett, who stated that he is the real estate agent for the land on which the market is being decided upon as the site for the market, asked the commission if it could not appropriate \$12,000 or \$15,000 to pave Box street for a curb market and then appropriate the rest of the original \$45,000 "after the injunction has been dissolved."

Commissioner Oscar Mills stated that he did not think that the commission should be asked to do something that was absolutely illegal and violated the temporary injunction granted by the court.

He said that if the action of the commission in appropriating the money for the market was illegal and that the commission was violating the order by making an appropriation for work on the street when the members knew that the money would be used for the benefit of the curb market which must be a part of a municipal market according to the terms of the appropriation made by the county.

Mrs. Norman Sharr, a member of the Atlanta Woman's club, was also present and offered statements from cities where there are municipal markets endorsing these institutions.

#### BLACKWELL GIVES BOND TO APPEAR FOR PEONAGE TRIAL

Macon, Ga., May 11.—J. Warren Blackwell, farmer of Jasper county, indicted by the federal grand jury of the northern district of Georgia while in session in Atlanta last year on a charge of peonage, was given a preliminary hearing today before the United States commissioner in Macon, and gave bond of \$1,500 for his appearance at the next term of federal court in Fulton county.

Blackwell came to Macon voluntarily for the hearing.

#### WOMEN ARE PRAISED FOR PROMPT RESPONSE

Volunteers Report to Aid  
in Canvassing, But Many  
More Are Needed, De-  
clare Workers.

Wednesday, the second day of the Salvation Army's home service appeal, brought continued success in rallying Atlanta's citizenry to the \$50,000 fund, and the close of the day found a large part of the territory covered by the teams backing the cause.

While volunteers to the ranks of the volunteer workers helped considerably Wednesday, and further recruits are scheduled to report Thursday, Chairman Lowry Arnold reiterated his call for additional manpower.

"The further we get along with the proposition, the plainer it becomes that Atlanta men and women are virtually unanimous in their high opinion of the Salvation Army and in their belief that the community should give it proper support," said Chairman Arnold.

**Everybody Willing to Aid.**

"Not one person in a hundred even hesitates to give our canvassers a contribution. Everybody is willing to help. But it takes lots of workers to see enough people. We are getting splendid results as it is, but success will come more easily and quickly if more of Atlanta's good citizens will take an active hand."

Mrs. Samuel Lumpkin, chairman of the women's division, on Wednesday urged that all Atlanta women who have received letters asking contributions of at least \$1 respond as promptly as possible.

"We are pleased and grateful at the magnificent manner in which our written appeals have been recognized," said Mrs. Lumpkin. "We want Atlanta women to make a historic showing in helping an organization that furnishes such wonderful service to unfortunate women, and the earlier we realize on the sympathy of the city's representative women the quicker will the fund be completed."

**Teams Making Progress.**

The Rotary club, led by Clark Howell, Jr.; the Elks committee, led by Walter F. Andrews, the Civitan team, led by John G. Pascoe, and the Atlanta reality board team, led by Charles F. Glover, continued to lead the field Wednesday. The latter outfit, which was a day late in getting mobilized, made an especially fine showing. On Thursday, the contingent from the Ad Men's club, with Ray Booker in charge, will be enlarged and correspondingly greater returns are predicted.

Luncheon at the Atlanta chamber of Commerce Thursday, it is expected that a tabulation of the returns up to date will be made. Every supporter pledged to lend help in the field and all other new volunteers are requested to report at the luncheon.

#### KOREAN REPUBLIC ASKS RECOGNITION BY UNITED STATES

Washington, May 11.—A dependency of Japan, now proclaiming itself as the "Republic of Korea," has appealed to the United States for recognition of its independence.

The formal request for recognition, addressed to Secretary of State Hughes, was presented to the state department Wednesday by Soon Hyum, who declared he held credentials from the president and provisional government of Korea as diplomatic agent to the United States.

The petition asks that president Harding issue a proclamation, "addressed to all nations," recognizing Korean independence and that the United States immediately resume direct diplomatic and commercial relations.

**WOMEN VOTERS TO MEET.**

This afternoon at 4 o'clock members of the League of Women Voters, will meet in the assembly room at the chamber of commerce to discuss the action of the board of education last Monday. The league numbers approximately 300 members, and the leaders have issued an urgent call for every member who possibly can be in attendance.

The manner in which the four commissioners seeking to oust W. F. Dykes tried to induce M. L. Brittain, state superintendent of schools, to consent to head the Atlanta schools was learned from an authoritative source Wednesday.

Mr. Brittain, who was in Savannah, was called over long distance telephone Monday at noon, and it is said, given to understand that he was to be the unanimous choice of the board. He was asked to accept the nomination.

The superintendent reserved immediate answer. After thinking over the message, he wired back asking that his name be withheld. When first told Monday night of his election, it is said that he was still under the impression that he was the choice of the entire board.

**Wanted Undivided Support.**

Close friends of Mr. Brittain had understood that he would not be unwilling to accept the city place, provided he had the undivided support of the education board and were given free and untrammelled authority.

#### SEVEN ARE HURT WHEN CARS CRASH

Severe Injuries Received  
by Motormen W. T.  
Witchley and R. Snipes.  
Five Negroes Victims.

A head-on collision between two McDaniel street cars on the corner of McDaniel and Berkeley streets at 6 o'clock Wednesday evening resulted in severe injuries to Motorman W. T. Witchley, Motorman R. Snipes and a number of negroes.

One car was inbound and the other outbound. The smash occurred in front of the grocery store of P. Kramer, 297 McDaniel street, who was an eye witness. Mr. Kramer stated that the motorman and conductor of inbound car No. 222 had parked it on the single track near the street and had gone into the store for a drink.

The outbound car, No. 208, containing about twenty passengers, all negroes, was coming down a steep grade, and Motorman Snipes said his brakes went dead. Seeing that he could not avoid a collision unless the other car was moved, he yelled to the motorman at the store, who, with the conductor, sprang into the car and vainly attempted to reach the double track.

Following is a list of the injured: Motorman R. Snipes, broken finger and several bruises. Motorman W. T. Witchley, painful injuries of the body and nervous collapse. Lillie May Brazelle, negro, of 31 North Moore street, left arm and chest badly injured.

Anna Allen, negro, of 421 Smith street, crushed side and hip. Theodore Barker, negro, of 302 McDaniel street, internal injuries and crushed back. Grover Franklin, negro, of 821 Smith street, sprained ankle and bruised side.

All of the negroes injured were on the outbound street car. Motorman Witchley was taken to the Atlanta hospital, where it was stated he was suffering from nervous shock. The accident was seen by a number of eye witnesses.

#### MILTON AVE. SCHOOL LOSES ROOF IN STORM

Women Crowd Fore-  
caster's Office.

Damage by wind and hail was reported from all parts of the state in the wake of a severe thunderstorm which swept over Atlanta at 4 o'clock Wednesday afternoon. Falling trees, sagging high tension wires, and collapsing houses threatened many lives, and the property damage caused by the wind and hail is expected to run into large figures. Atlanta felt a wind whose velocity was 55 miles an hour.

Traffic was seriously impeded by uprooted trees, a fallen pole, and telephone and telegraph service was interrupted by damage to the wires. In the negro sections of Atlanta, the street lights were out of commission for several hours after dark, and patrolmen were cautioned to be more than usually alert for disorders in the darkness.

While C. F. von Herrmann, the local weather forecaster, said the wind had died down to a westerly breeze at night, which would bring fair weather today, the Washington bureau predicted continued showers for Georgia.

**Hail Falls in Atlanta.**

Hail fell in many sections of Atlanta while the storm was at its height, and the wind shrieked around the high buildings. The pelting rain drove pedestrians to shelter, which undoubtedly saved many from injury and death from falling trees and signs. Two inches of hail was reported from Hampton, between this city and Griffin, and a heavy hailstorm was experienced over the entire section of the state between Atlanta and Macon. Crops damaged by hail have been reported from many rural sections of the state. Hail broke many windows in Augusta.

The only fatality reported was in Thomasville, where a negro caddy, sheltered under a tree with several companions, was killed when a bolt of lightning shattered the tree. Life was endangered when the storm swept over Atlanta as the wind blew the glass globes from many street lights into the streets. A huge electric sign on the Lyric theater was blown into Cone street, the roof was ripped from the Milton avenue school in Lakewood park, and numerous signs and trees were blown over by the storm.

The Lyric theater sign tumbled into Cone street after being torn from its fastenings atop the building. It crashed the tops of two limousines parked outside the theater. The heavy rain, preceding the wind by a few moments, had driven pedestrians to shelter and no one was injured.

The fire department was called to Milton avenue school to clear away the wreckage of the roof. The

gro's door. The place was notorious. There wouldn't have been any trouble about closing it if the police had wanted it closed."

He was still on the stand when the hearing adjourned until 7:30 o'clock Thursday evening.

The only other spirited incident was furnished by Warden Zerkow of the federal penitentiary who emphatically denied making a statement that Bert Donaldson of solicitor Boykin's staff has not reformed and is still a crook. "This had been testified to by Aldine Chambers and though Mr. Chambers made a personal effort to have the warden member the conversation, the warden was emphatically positive that no such conversation had ever taken place.

**Hatcher on Stand.**  
Harvey Hatcher, who was chairman of the previous council investigating committee, was the first witness in rebuttal offered by Mr. Black at the night session. He testified that as chairman he had ascertained against the police that they would not be persecuted by the police as a result.

"Later on," he said, "in a conversation with Mr. Chambers, who in a way represented the police department, I discovered that the police had construed that this ruling meant that they were not to prosecute any witness for any crime that they might have committed. This was decidedly further than I had intended the ruling to mean. For instance, if a man had committed some high crime, such as murder or being a member of a criminal gang, I didn't believe that testifying in that inquiry should absolve them."

Judge Hines then tried to get the witness' opinion as a lawyer that against the police. "I don't know," he said, "but I have never heard of a law which would give the solicitor-general such authority."

Mr. Jones then attempted to get Mr. Hatcher's opinion that it is always dangerous policy to offer immunity to criminals to testify against officers.

Mr. Hatcher replied "that would depend on conditions. It has been customary to grant such immunity ever since there has been criminal prosecution."

Judge Hines then asked about Chief Poole's character. "Permit me to enlarge on that," he said, "Mr. Hatcher. When we conducted this inquiry, I went into it with an idea, and I believe Chief Poole was inefficient and in all probability had been guilty of misconduct. We went after him pretty savagely and put the most unfavorable aspect on all evidence against him. We did not know in the belief that every police official should be able to stand the most searching inquiry. As the conclusion of our investigation, I declared that I would never sign a report which reflected on a police officer on the character of Chief Poole. I did this because I had heard his character praised by citizens in which I had the utmost confidence."

**Reporters on Stand.**  
Newspaper reporters were put on the stand to prove that when the solicitor-general stated that immunity from prosecution would be given witnesses, he had referred to rambling witnesses, who are given such immunity for testifying by the law.

"You don't think that's the law," said Judge Hines to Mr. Black.

"I don't think it is the law. I know it is the law," replied Mr. Black.

You and I have different ideas, then, said the judge.

"Did you ever see lawyers on opposite sides of a case agree on the law and only occasionally on the facts?" asked Mr. Black.

Chief Beavers was called by Mr. Black. A telegram to him and another on August 28, 1918, saying a warrant was held for L. V. Ewing were shown. The originals, he said, he could not find. One was from Florida and the other from Detroit. Other letters saying warrants for Ewing had been issued were shown him by Mr. Black.

"I don't recall receiving the letter," he said. It was from authorities at Lakeland, Fla.

Chief Beavers said he could not find anything of that kind in his files.

"Did your department discuss Ewing's arrest with Detroit?" asked Mr. Black.

"I have no record and no recollection of it."

Attorney Jones questioned the fact that the alleged telegrams were real telegrams, and said nothing proved that they were genuine. Mr. Sims asked that the originals be produced, or the loss of the originals established.

"I have no copies of them and can't find the originals," said Chief Beavers. "I am very careful about such matters. I keep the originals, and only copies of it leave the office."

**Tampa Telegram.**  
On December 3, 1917, a telegram from E. J. Benford in Tampa asked Chief Beavers to help Biggers find the alleged swindlers.

Q: "If all other papers were lost when Chief Bullard died, this was not, was it?"

A: "No, I produced this on request from my files. As I testified before, I gave the warrant to Chief Bullard."

"When this came up, I went before Boykin and the grand jury and asked for witnesses to testify against any police officers. I asked for indictments, if any one in the department was guilty," said Chief Beavers. In a statement after questions were done, "I think a police officer, if guilty, should get twice the sentence of a civilian. I would protect a guilty officer with the law. I feel I should back up officers in their duty."

Warden Fred G. Zerkow of the federal penitentiary was called.

## PHINIZY IS ELECTED BY RAILROAD BANK

Augusta, Ga., May 11.—(Special.) John Phinzy was elected active vice-president of the Georgia Railroad Bank, succeeding the late Rufus H. Brown, at the meeting of the directors of the institution Wednesday morning. Besides filling the vacancy created by the death of Mr. Brown, the directors made the following promotions in the personnel of the bank.

### E. F. Lunken PRESIDENT

Samuel Martin was promoted from cashier to vice-president; Hugh H. Saxon from assistant cashier to cashier; Hal Egan from note teller to assistant cashier. Mr. Martin and A. B. Vonkamp were elected members of the board.

The meeting of the Georgia railroad bank directors was preceded by the annual convention of the Georgia Railroad and Banking company stockholders, who elected the following directors for the ensuing year:

### \$1,000,000 INVOLVED IN REALTY PROJECT

A real estate and building project involving almost a million dollars was announced Wednesday by the Adair Realty and Trust company, following the completion of arrangements whereby H. M. Nichols, contractor and builder and Dr. H. H. Hill, Inc., will co-operate in the construction of a number of fine homes in the Druid Hills section. More than thirty large lots on Oxford road, between the Leona avenue and East Lake road have been selected for the sites of the dwellings, and it is believed these plans will give an added impetus to the home construction movement. Plans for all the buildings have been drawn, and work has already commenced on a few on Oxford road. It is stated that the prices will range from \$17,500 to \$30,000.

night in which he made it clear that republicans could and would be recognized for appointment under the modification of the Wilson order, but that incumbents would be recognized as such until their terms of office expired unless removed by cause.

That is a question of great moment in Georgia, and the order of the president should satisfy all speculation on the subject for the time being.

Another matter of grave importance to Georgia is whether or not there will be an appropriation bill for federal buildings. Indications are there will be no such bill at the present session.

Postoffice Funds. Confirmation of this statement is the following interesting colloquy between Judge Brand, of Georgia, and Republican Leader Mondell, today, which I quote as follows:

Mr. Brand—"Can the gentleman give me any information as to whether the public buildings committee is going to be allowed to consider bills for postoffices?"

Mr. Mondell—"I do not pretend to control the action of the public buildings committee, but I will say very frankly to the gentleman that while I had hoped that we might at this session take action whereby public building construction might at least be authorized for cases of emergency, I am rather inclined to think that in view of the situation of the treasury, the way matters stand generally throughout the country and the great demand for reduction of expenditures, I am rather inclined to the opinion that we should not report any public building bills."

Reports in Papers. Mr. Brand: "I ask the question because I read in a rural carrier paper published in this city and a local paper in my district, 600 miles away, that it had already been decided by the majority not to report out of the committee any public building bill at this session."

Mr. Mondell: "I do not know whether the committee has decided upon the matter or not. I have expressed my personal views to members of the committee who made inquiries of me as to my opinion."

Mr. Brand: "In a great many instances in the last three years postoffice buildings have been condemned by the government, and we are anxious to know if there is not going to be some relief in those cases."

Trying Situation. Mr. Mondell: "There are some very trying situations in the country. There are situations that I am inclined to think ought to be relieved, and yet the gentleman realizes that as a practical matter in

legislation of this kind it is difficult to say where the line should be drawn. Once we start, I think we would not stop short of a general public building bill, probably a very big one."

"Given the people of my state in common with the constituencies of all of us are quite earnest in this matter, and properly, so I think in many cases while I sympathize with their view, and while I am not one of those who view proper public building programs as pork barrel legislation or appropriations, I am inclined to believe that until the state of our finances is improved and we know a little more definitely how we stand and what the outlook is for the future, we should not enter upon new construction or new authorization."

"This is the first analysis means there will be no bill for public buildings at this session, although there are more than one hundred bills for such buildings in Georgia alone."

### GOETHALS ASKED TO PLAN RECONSTRUCTION

to go over the top the moment any bad faith on the part of Germany should become evident.

"We remain with our arms ready," he said, "and we shall see what Germany does. If she has completely disarmed, it will be easier for her to pay. In accepting the delay we want to give the world time to make proof of our good will and patience. But we demand that Germany disarm and pay."

Loucheur called the utilization of German labor for work of reconstruction as practically an impossibility.

"Germany would have to pay her laborers in francs," he declared, "since they could be unable to eat marks. Let her pay us in francs and we will find the labor elsewhere. Besides, the presence of German workmen in certain populous localities which knew the Germans during the war would be unacceptable."

Must Pay in Gold. The minister stressed the necessity of Germany's paying in gold marks, foreign currency, or negotiable securities.

"If it is only a question of paper marks," he said, "policy of price printing shops could be accommodating enough. If the German bonds are absolutely guaranteed, however, by the time they are absorbed they might become a kind of international money. Germany can pay the billion gold marks due on June 1. She has the money."

"I am glad America has approved the reparations demands," Loucheur emphasized the fact that the restoration of her devastated regions was an international and commercial problem, since a quarter of France's exports come from the regions of the north, where the damage is greatest.

of the wool schedule, and Mr. Fordney has not indicated that he is offended at this ex-parte procedure.

The public as represented by the tariff commission has had almost as scant courtesy from Mr. Fordney as from Senator Penrose.

Manufacturers Set. The manufacturers are determined one thing: "That the just form in which they levy the heavy wool duty is on the grease-weight of wool. Then they buy clean wool, excise it and make the duty higher than it was intended. Of course the wool growers don't like this and the public is robbed, but unless the wool growers and the public arouse interest in the tariff bill, schedule 'K' which broke the back of the republican party ten years ago, will come back, for certain great interests have been aroused means robbery and these interests certainly have representatives in congress who see as they see.

The tariff bill now forming is, of course, in embryo. But it is fairly evident that in the matter of the tariff on metals, glass and pottery, lumber and dyes, the great organized manufacturers of these commodities are going to have their way on the earlier drafts of the bill. The tariff commission has been consulted frequently in the chemical schedule. Representative Long-

worth is earnestly trying to get a chemical schedule written in the public interest, but interested parties, particularly in the dye industries, are in close touch with the house sub-committee in charge of the tariff on dyes. Senator Moses had his say about that in the senate this week and exploded a bomb.

Situation Not Hopeless. But the situation is not at all hopeless. Two strong forces will attack these high schedules and seek to destroy these schedules. First, the great bankers who want imports to help pay Europe's debt, then the liberals. They are chiefly from the middle west and with their eastern banker allies these westerners may make a respectable fight.

The fight will probably hinge upon the use of the tariff commission. The reactionaries will insist upon schedules made by the manufacturers, aided by the government's so-called experts. The liberals will demand a tariff bill largely recommended by the tariff commission, which has studied the ingrown toe nail, as it affects the manufacturers, the dealers in raw materials and the consumers. Such a tariff-making body is sure to get a fairer tariff than one made like schedule "K" in 1908 by me who know exactly what they wanted."

War Restraining Force. The most powerful restraining force of all in tariff legislation will be the public opinion, which will be paralyzed with uncertainty. It will

be most difficult to set values in schedules because inflated currency in most European nations has made values in any European country largely a matter of guess. Austria, Greece, Italy, the Slavic countries, Turkey, and, to an extent, France, have such unstable currency that no basis of valuation of that currency can be fixed. So tariff making becomes speculation, not a science. Schedule "K" may come back, but what would it avail in buying wool from southeastern Europe? The whole tariff law may be upset by any of a dozen European disturbances, which would unsettle the rate of exchange.

So the tariff, once the great American issue, is in the fourth or fifth rate place, along with the public welfare bill and the general deficiency bill. Thus the mighty have fallen.

### INGROWN TOE NAIL TURNS OUT ITSELF

A few drops of "Outgro" upon the skin surrounding the ingrown toe nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

## The Tendency of Every Man Is to Live Up To His Name

Wherever you find a good name you will find some man trying to live up to it. Character follows reputation far more quickly than reputation follows character. No one ever lost his good name except through folly.

What the world thinks of a man is the very best moral tonic that is sold under the label of philosophy.

And it is the same with merchandise as it is with men. The nameless thing is dreaded everywhere, while the thing with a good name is usually good because you expect it to be.

Men grow proud of their products. You will find a manufacturer saying "This shoe has got to be good because it bears my name." You will find a canner saying, "I cannot use lye any more than I tell a lie." You will find a clothing manufacturer saying "If I am 'all wool,' my clothing must also be all wool."

And so it goes with every single product that carries a brand or a name. Whenever a man sets a standard, he strives to live up to it; and whenever the world sets that standard, he doubles the effort.

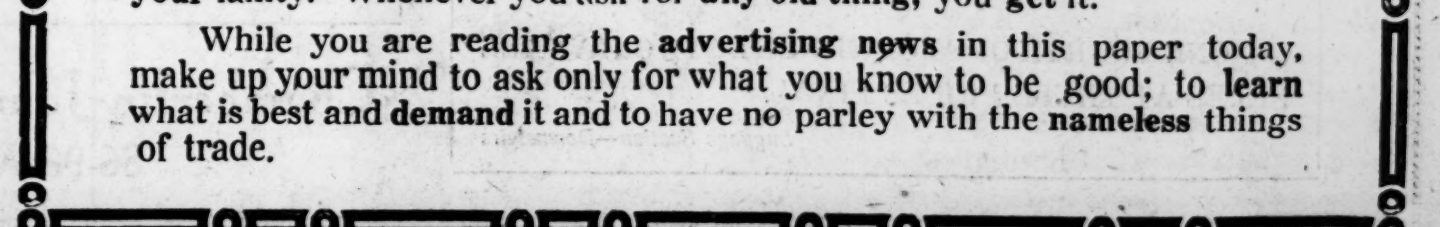

Which simply means, if you want the best, you must ask for the best. And every time you ask, you make it better.

There is hardly one of you readers who does not know the name of every good product on the market. From clothing to sugar and from hosiery to baking powder some good name is indelibly fixed on your mind, yet, when you ask for an article, most of the time you do not use that name.

And every time you fail to do so, you discourage the maker, you lower the standard for yourself and you allow some inferior thing to gain in strength and capacity.

Let this go home in your mind: You set the standard of merchandise. The maker follows your ideals. Adulterations creep in through your laxity. Whenever you ask for any old thing, you get it.

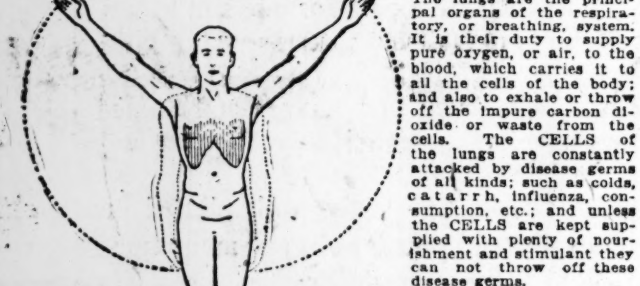

While you are reading the advertising news in this paper today, make up your mind to ask only for what you know to be good; to learn what is best and demand it and to have no parley with the nameless things of trade.

## What's the Matter With You?

Are you always smiling, no matter what comes up? Do you have a bright and optimistic viewpoint of all life? Are you popular socially—are you filled with confidence and enthusiasm? Does your mind respond quickly and efficiently to your needs—can you meet all emergencies with the firm conviction that you will win out regardless of obstacles? Are you strong physically and mentally, able to grasp the duties and pleasures of life that come to you from day to day? IF NOT—then you should begin to find out what the trouble is. Without doubt there are physical disorders that are holding you back—keeping you from being the man or woman that you should be.

### YOUR LUNGS MAY BE WEAK

The lungs are the principal organs of the respiratory or breathing system. It is their duty to supply pure oxygen, or air, to the blood, which carries it to all the cells of the body; and also to exhale or throw off the impure carbon dioxide or waste from the cells. The CELLS of the lungs are constantly attacked by disease germs of all kinds, such as cold, catarrh, influenza, consumption, etc.; and unless the CELLS are kept supplied with plenty of nourishment and stimulant they can not throw off these disease germs.

### Examinations Will Be Conducted Friday For City Teachers

The annual examination for teachers in the Atlanta public schools will be held Friday and Saturday, May 13 and 14. The examination will be only for those wishing to teach in the grammar schools. White applicants will take the examination at the Boys' High school, while the negro applicants will be examined at the Yonge street school.

## Absence of Disease Isn't Health; You Need Vitality, Energy

You may have no particular disease, and yet fall far short of enjoying real health. To be actually healthy you must be sturdy, alert, vigorous, a-sparkle with enthusiasm and the joy of living—fairly bubbling over with vitality and energy. Are you thus?

If you are well, yet listless and unambitious, it is because you lack some quality that would fill you with vim and drive, and nine times out of ten the sole cause of this lack is found to be disordered, weak blood.

Wholesome blood is the very fountain source of that energy which puts spring into your muscles, snap into your step and spar-

kle into your eyes. If you want all this, begin right now to enrich your blood stream.

You will find, as thousands of others have found in the last fifty years, that S.S.S. is an excellent remedy to do this for you, one that removes the poisonous impurities and helps build your blood into a rich, nourishing supply. S.S.S. is an herb compound, discovered by the Indians, and still made as they made it.

Get S.S.S. from your druggist today. Start taking, and then if you want expert medical advice free, write in detail about your condition to Chief Medical Advisor, 862 Swift Laboratory, Atlanta, Georgia.

### NEW TRIAL GRANTED TO ALLEGED SLAYER

John Brown, Jr., was tried for murder in Warren county several months ago. At the noon recess the jury still was deliberating, so L. D. McGeagor, a prominent attorney who was defending Brown, went for an automobile ride. Shortly after court had convened for the afternoon session, the jury announced it had reached a verdict, but Brown's attorney had not returned.

A verdict of guilty, with recommendation for mercy, was returned, and Brown was sentenced to life imprisonment. Later, Mr. McGeagor returned, and when he learned of the proceedings immediately filed a motion for a new trial. The judge overruled the motion, and the case was carried to the supreme court of Georgia.

Another interesting decision was rendered by the court of appeals Wednesday afternoon, when it overruled Judge A. L. Bartlett's appeal in a misdemeanor case. Judge Bartlett, of Dallas, was charged with a misdemeanor in the superior court in the Tallapoosa circuit. Judge Bartlett, of Dallas, was charged with a misdemeanor in the superior court in the Tallapoosa circuit.

In the 1918 election for judge of the superior court in the Tallapoosa circuit, Judge Bartlett, of Dallas, was charged with a misdemeanor in the superior court in the Tallapoosa circuit. Judge Bartlett, of Dallas, was charged with a misdemeanor in the superior court in the Tallapoosa circuit.

### MELL WILKINSON WILL SHOW VALUE OF HOME BUILDING

Mell R. Wilkinson, president of the President's Club, has given serious consideration to the subject of home building and will have something important to say on that subject at the meeting over which he is to preside Thursday evening at Cable Hall, when prizes will be awarded in a competition of 1,000 students of the Technological High School and Boys' High School for the best article on home building.

"There is a great shortage of houses in Atlanta," said Mr. Wilkinson, "and rents are very high. This is a very serious matter and one that should have earnest and practical consideration. I am glad to see so many young men interested in this subject and I trust that these future home owners will come out Thursday evening to witness the delivery of prizes for the best articles on this subject by students of the two male high schools. I will have some suggestions to make in regard to home building which I think will be helpful to them."

Invitations have been sent to the students of the two high schools and their families; also to the Board of Education, the faculties of the two schools and to a number of architects, builders and prominent citizens. The public, especially those interested in the subject, is invited to attend the meeting.

The program will be as follows: Opening remarks, by Mell R. Wilkinson, president. Short talks by Lee Aschcraft, president of the Chamber of Commerce; Charles E. Choate and R. S. Pringle, chairman of the architects committee. The delivery of prizes for the Tech High school will be made by Professor W. M. Sutton and for the Boys' High school by H. O. Smith, principal of that institution. There will be six prizes, three in each school, amounting all together to \$100. These prizes were offered by the Williamson-Tift Lumber Company with the approval of the school authorities.

### JUDGE IS WOUNDED; TWO WOMEN HELD

Tulsa, Okla., May 11.—Two women were held here today in connection with the shooting and seriously wounding of Judge John Devereaux, former judge of the Oklahoma supreme court.

According to the authorities, Judge Devereaux was found at his apartment in a semi-conscious condition Monday night. The identity of the women was not divulged.

### GERMANS ACCEPT UNCONDITIONALLY

London, May 11.—(By the Associated Press.)—Germany's unconditional acceptance of the entente reparations ultimatum was delivered to Prime Minister Lloyd George by Dr. Stahmer, German minister to Great Britain, here today.

Mr. Lloyd George announced in the house of commons this afternoon Germany's complete acceptance of the ultimatum. He was greeted with prolonged cheering.

Dr. Stahmer handed the German reply to the prime minister at 11 o'clock this morning and Mr. Lloyd George immediately telegraphed the news to all the governments concerned.

The text of the reply as delivered to the prime minister began as follows: "Mr. Prime Minister: In accordance with instructions just received I am commanded by my government, in accordance with the decision of the reichstag and with reference to the resolutions of the allied powers, of May 5, 1921, in the name of the new German government to declare the following: The German government is fully resolved, first, to carry out without reserve or condition its obligations as prescribed by the reparations commission."

"Second, to accept and carry out without reserve or condition the guarantees in respect of those obligations prescribed by the reparations commission."

"Third, to carry out without reserve or delay the measures of military disarmament to which the German government is notified by the allied powers in their note of January 29, 1921, those overdue to be completed at once and the remainder by the prescribed date."

"Fourth, to carry out, without reserve or delay, the trial of war criminals and to execute the other fulfilled portions of the treaty referred to in the first paragraph of the note of the allied governments of May 5."

"I ask the allied powers to take note immediately of this declaration."

(Signed) "STAHMER."

Mr. Lloyd George, in giving the terms of the reply to the commons, said: "This is complete acceptance of every demand."

### OFFICIALS DISCUSS EXECUTION OF DEMANDS.

Paris, May 11.—(By the Associated Press.)—Premier Briand, the ministers of war, finance, marine, public works and liberated regions, Marshal Foch and General Weygand, met with President Millerand this morning to discuss measures necessary for the execution of the demands prescribed in the allied ultimatum to Germany on May 5.

The clauses prescribing the acts to be performed by Germany, in case of her acceptance of the ultimatum, relative to disarmament of the military, naval, army, aerial branches of her service, were discussed. The application of the financial measures laid down by the allies in their ultimatum was likewise examined, but the decisions reached were not announced.

### WASHINGTON FEELS HIGHLY SATISFIED

Washington, May 11.—Administration officials expressed satisfaction today over the decision of the German government to accept the reparations terms of the allies.

It is known that an invasion of the Ruhr valley by the allied forces would have been regarded by the United States with deep concern, although the allied have given assurance this country would stand with them. Marked relief was indicated, however, when it became evident that Germany, by acceptance, had averted the adoption of such a measure.

American economists appeared to be convinced of Germany's ability to meet the obligations imposed and they professed to see in her decision promise of an economic revival that would cause a happy reaction throughout the world.

With the highly controversial question presented by the allied insistence upon Germany's agreement to pay the fixed indemnities out of the way, it was indicated that the department expected to proceed more rapidly with the consideration of the numerous problems connected with the development of its foreign policy.

### SCORN OF ACTION VOICED IN BERLIN.

Berlin, May 11.—(By the Associated Press.)—The newspapers of the nationalists and industrialists today receive the new cabinet and its action in accepting the allied ultimatum with expressions of scorn and contempt.

"The German people insofar as they have yet been able to think and feel, will not have anything in common with the government," says the Pan-German Deutsche Zeitung. "For us this document is but a scrap of paper."

Count Friedrich von Westarp, conservative member of the reichstag, writing in the Kreuz Zeitung, declares the conservatives did their duty in opposing acceptance of the ultimatum. He expresses the hope that their action will resolve itself into a seed from which the national will for self-assertion and deeds will spring.

The Tages Zeitung charges that "the so-called German parliament, playing France's game, and that make-up of the new cabinet accommodates the French wishes."

News papers of this city professed this morning to see in Germany's acceptance of the allied reparations demands proof that the commission only to the argument of force. At the same time they expressed doubts as to her fulfillment of her undertaking.

### Co-operation Wanted Of Express Companies By Knoxville People

Press dispatches from Knoxville Wednesday were to the effect that the board of commerce of that city has protested the action of the American Express company in refusing to accept shipments at transfer points from the Southeastern express company. In a letter to the interstate commerce commission.

Only a few days ago the Georgia railway commission prohibited this move of the American company and ordered the two concerns to act in harmony and receive and deliver goods in harmony to the best interests of the shipping public within Georgia.

### Greek Pageant To Be Presented At Mrs. High's

A Greek pageant will be presented by the young women of Agnes Scott college in the sunken gardens of Mrs. Joseph M. High's home on Peachtree road, corner of Fifteenth street, on Friday afternoon at 4 o'clock.

The production will be one of artistic valuation, and Mrs. High's gardens offer a wonderful setting for this affair, which is the story of Pandora, interpreted by a group of graceful dancers.

Writer of Play.

The play was written by Miss Rachel Rushton, a niece of Mrs. James Osgood Wynn, and it is pronounced to be one of the finest productions ever staged by college women.

The Alumni Memorial association of Agnes Scott college are to benefit by the proceeds from this pageant, which will be placed towards the memorial to Miss Anna Young, beloved teacher at Agnes Scott who died in 1920.

It is desired that all friends of the college will show an interest in this event, which should appeal to the college set. Solo dancing by Pandora and Epithetis and group dancing by Aurora and her followers will be particularly beautiful.

The costumes were designed and made by the Agnes Scott girls, and are most attractive in every way.

Ticket Chairman.

The tickets are 50 cents and will be on sale at the college.

### GIRLS! BLEACH SKIN

#### WHITE WITH LEMON

### Recipe for Lemon Lotion Which Doesn't Irritate.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin. Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach.—(adv.)

#### "What Is So Rare as a Day in June"

## The Bewitching New Summer Frocks Parade Into View

JUNE is just peeping 'round the corner with its wonderful days of sunshine and flowers. We would be amiss did we not direct attention to these dainty Summer Frocks that are as cool as the sea and as colorful as a butterfly. They possess the rare distinction of being charmingly beautiful, yet withall so practical, serviceable and comfortable—with their individual touches, such as odd buttons, contrasting collars, trim belts and useful pockets. They are here today—quite the most extensive assortment we have ever shown—well deserving of a special visit to our second floor to see.

The Low Prices Are Particularly Enticing, Too

### Gingham Dresses

### Voile Dresses

Very finest quality gingham, in check and figured effects, of white, pink, blue, lavender, green. In plain or smocked front, with organdie collars and cuffs—all clever creations that perfectly combine practicability with charm—and so reasonably priced.

Their sheer loveliness wins for them a prominent place in our display. Dainty creations in blue, pink, red, black, lavender. Each model more attractive than another. Quite the most charming dresses one could imagine—at these very low prices—

### Dance for Visitors.

Captain and Mrs. J. W. Ward entertained at a dance on Tuesday evening at their home in West End in honor of Miss Katherine Geer, of Douglasville, Ga., and Miss Grace Curran, who leaves next week to join her parents, Major and Mrs. C. E. Curran, 29 New Orleans, to sail for Manila, Philippines, on June 15.

The entire lower floor was artistically decorated with spring flowers.

In the dining room the punch table had as its decoration sweet peas in pastel shades, and Dorothy Perkins roses.

Mrs. Fred Sorrow and Mrs. Corbet Hardy assisted in entertaining. Thirty guests were invited to meet these attractive visitors.

### L. X. I. Club Dance.

One of the most interesting events of the past week was an informal dance given by the L. X. I. Club Thursday at the Utopian club rooms.

Among those dancing were Misses Mary O'Neal, Hazel Tugge, Marjorie Moore, Miss Ellis, Margaret Cunningham, Elizabeth Broughton, Josephine Harris, Margaret Smith, Sarah Ivins, Pauline Gault, Mrs. G. The next dance will be held Friday, May 20, at the Utopian club rooms, Peachtree and Third streets. All friends of the club are cordially invited.

### Regular Meeting Of U. D. C.

The regular meeting of the Atlanta chapter of the United Daughters of Confederacy will be held this afternoon at 3 o'clock at Edison hall.

Mrs. John A. Perdue, president, will preside.

Interesting reports will be heard from the different departments.

Mrs. Eleanor G. Graham, of New Orleans, president of the Louisiana chapter of U. D. C., in New Orleans, will address the meeting. Mrs. Graham is not only a business woman, but is a reader, writer and lecturer.

Briny Owens, of Indiana, will sing.

A full attendance is urged.

### Mrs. Oldknow Hostess.

Mrs. William Oldknow hosted eighteen guests at a 1 o'clock bridge luncheon on Wednesday in honor of her visitor, Mrs. Mabel Noden, of New York city.

Red ranunculus were used in vase effect throughout the living and dining rooms and the same flower predominated in the table decorations.

Prizes were awarded for the highest and lowest scores at bridge, and after the game tea was served in the garden.

### Milton Avenue

Parent-Teachers to Meet.

The regular monthly meeting of the Milton Avenue Parent-Teacher association will meet Friday afternoon at 2:30 o'clock.

### Mrs. Bratton Weds H. C. McMillan.

The marriage of Mrs. Laura Bratton to Homer Cleveland McMillan was solemnized at the home of Mr. and Mrs. Robert W. Woodruff Wednesday evening at 9 o'clock in the presence of a few close friends and relatives, Dr. Henry Lyons officiating.

The ceremony was performed in the living room before an improvised altar of flowers, the center featuring by a candelabra with tall cathedral candles. On either side were floor baskets of ivory filled with white lilies.

The bride was lovely in a traveling suit of navy blue tulle trimmed in gray, her blouse was of blue georgette embroidered in gray, with hat to match, her corsage was of orchids and valley lilies.

An informal reception followed the ceremony.

Mrs. Woodruff was lovely in black tulle trimmed in sequins, with corsage of pink roses.

Mrs. J. N. McMillan, mother of the groom, wore navy blue georgette heavily beaded, her corsage was of pink roses.

Mrs. John Bratton, Sr., wore gray Canton crepe.

Mrs. Ernest Woodruff's gown was of black satin heavily beaded in jet. During the evening Mr. and Mrs. McMillan left for Washington, New York and other eastern cities. Upon their return they will reside in Atlanta.

### Honoring Mrs. Tift.

The tea at which Mrs. Albert Dunson entertained yesterday afternoon at the Georgian Terrace was a pretty compliment to Mrs. Thomas Tift, a recent bride.

Mrs. Dunson received her guests in the palm room, which was elaborately decorated with Dorothy Perkins roses, the same flowers being used on the table.

Mrs. Dunson was handsomely gowned in an afternoon dress of orchid satin.

Mrs. Tift's afternoon gown was of lace and satin, worn with a hat of lace and white feathers.

Mrs. Dunson was assisted in receiving by Mrs. R. D. Render, Misses Celeste Dunson and Mary Woolridge.

### Carolyn Cobb

Community Entertainers.

The Carolyn Cobb community entertainers will present a most varied and interesting program at St. Philip's parish house this afternoon, the performance to begin at 2:30.

"The Golden Goose," a dramatization of the old folk tale of "The Princess Who Could Not Laugh," will be a feature of the program. Miss Marion Duke Bailey will take the leading part in this play.

Miss Hattie Rainwater's talk on birds will be of especial interest and is one of a progressive series.

A pantomime, to be staged by Mrs. Harriet Moore, the children's number in which the children of the Syrian mission will compose the cast, will especially feature a Syrian folk dance, and will also include the reciting of a poem in Arabic.

The price of admission is 15 cents for children and 25 cents for adults.

The following will take part in the program: Mrs. E. B. Browne, Georgia Pruitt, Mary Turner, Evelyn Phillips, Hattie Rainwater, Helen Bagley, Malissa Co. Malissa, Mrs. Marion Duke Bailey, Sarah Hill, Mary Joe Merritt, Eula Brown, Allen Ellis, Virginia Turner and Hope Merritt.

## North Avenue Parent-Teachers To Hold Meeting

The North Avenue Parent-Teachers club will meet on Friday afternoon at 4 o'clock, the occasion to be the last meeting with Mrs. L. W. Purdy as president, and will also mark the election of officers for next year.

The retiring officers and members of the seventh grade will be the special guests of honor.

Mrs. E. G. Turner and two of her gifted pupils, with the seventh grade, will present a pantomime, which has been especially arranged for this occasion.

Mrs. J. K. Martin will render several piano selections, and will also play for the special music arranged for the pantomime.

The election of officers will follow. Reports will be read from the chairmen of all standing committees and the president, Mrs. Purdy, will also read her report. Refreshments will be served. The members and friends of the association are invited to attend.

### Mr. and Mrs. Peebles

#### Hosts at Novel Affair.

An interesting and unique affair was the "Sidney Lanier Evening," at which Mr. and Mrs. Henry C. Peebles entertained in honor of Judge and Mrs. Alexander King, who leave soon for Flat Rock to spend the summer.

The program of the evening centered around the life and writings of Sidney Lanier, Georgia's poet laureate. A sketch of the poet's life and some of his most beautiful lines were read by the guests. Music also added much to the pleasure of the occasion.

An interesting feature was Judge King's recitation of the poem "The Insignificance of Lanier," he having been present at the time when the poet was preaching the silver fute in appreciation of his genius.

Friends of the Lanier family in Atlanta will be interested in the approaching marriage of Miss Elizabeth Day Lanier, granddaughter of the poet, to Robert Hart Bolling, who will take place Saturday, May 21, at "Rock Ridge," the home of Mr. and Mrs. Charles Day Lanier, at Greenwich, Conn.

## Atlanta Babies To Be Shown In the Movies

Mrs. Harry Goodhart announces that the camera man will be on hand to make a film of the future generation at the child welfare committee's baby show at the Atlanta Woman's club Saturday afternoon. This will be shown later in one of the leading theaters and it will give great pleasure for the entire family connections to see the "ruler of the household" on the screen.

The chairmen and all of the different committees for the show are holding a joint session at the Woman's club this morning at 10 o'clock, to perfect all arrangements and finish final details for the show, and judging from the personnel of the list of entrants, it will be a real show.

**Certificates Presented.**

Certificates that resemble a miniature of what this future generation will be awarded when they receive their university degrees, will be given to every child who is examined in the physical contests. Souvenirs have been arranged for all the May-pole dancers. Fifty-six ribbons and many prizes will also be awarded. Reservations will close before Friday night, as previously announced, if the entrant list becomes too large. The committee will not take a larger crowd than can be handled easily and without discomfort to any.

Mrs. Clarence Smullyan is chairman of tickets, and assisting her will be Mrs. Clarence Barms, Mrs. Walter C. Hill, Mrs. William C. King, Mrs. Charles Goodman will assist Dr. Nevin Adkins and his committee of baby specialists in keeping the records.

Mrs. C. K. Ayer is in charge of the May-pole dances, and any child who desires may secure ticket to it regardless of the baby show.

**Receiving Committee.**

The receiving committee serving the show will be Mrs. E. B. Browne, F. Elder, chairman of the child welfare committee, will include all the officers and members of the executive board of the club and all are requested to attend and be present at 2:30 p.m. promptly.

Manset, Mrs. Lucas Baird, Mr. Goodloe Yancy, Jr., Mrs. Roy Sims, Mrs. William Oldknow, Mrs. Miss Evelyn Stephens. All entries will positively close Friday, May 13, at 6 o'clock.

The program of the evening centered around the life and writings of Sidney Lanier, Georgia's poet laureate. A sketch of the poet's life and some of his most beautiful lines were read by the guests. Music also added much to the pleasure of the occasion.

An interesting feature was Judge King's recitation of the poem "The Insignificance of Lanier," he having been present at the time when the poet was preaching the silver fute in appreciation of his genius.

Friends of the Lanier family in Atlanta will be interested in the approaching marriage of Miss Elizabeth Day Lanier, granddaughter of the poet, to Robert Hart Bolling, who will take place Saturday, May 21, at "Rock Ridge," the home of Mr. and Mrs. Charles Day Lanier, at Greenwich, Conn.

# Profit Taking Occurs After German Action

BY R. L. BARNUM

New York, May 11.—Profit taking and some hysterical selling occurred today on the news that Germany had accepted the allied ultimatum. Professional traders invariably sell on the actual announcement of expected good news. Inasmuch as today's announcement was discounted, stock marketwise in the price advance that began on April 21 and ran until last Friday today's profit taking was warranted. But there was little ground for the hysterical selling that was based on argument that with peace actually here again, Germany would begin at once to dump manufactured goods on the market.

Germany will have something else to do for some time other than dumping its goods on other markets. How will the money which she has just agreed to pay over be raised? Of course, bonds will be issued but the sale of such securities will not be easy. In the first place the bond issue will be an open one as no one knows exactly how much Germany will have to pay. Usually the German mortgage is not an attractive one from the viewpoint of investors. And then, too, the average investor is not looking for a bond the interest on which will likely have to be collected regularly by the sheriff.

But there was some good selling of the steel and automobile shares today that was not hysterical. Today's news included the sale of \$10,000,000 first mortgage 20-year bonds by Kelly-Springfield tire and price reductions of from 12 to 20 per cent by the Goodyear Tire and Rubber company, and, according to Detroit dispatches, other automobile companies are going to cut prices in response to urgent demands of agents who deal directly with the public. These agents are claiming that the only way the industry can be stabilized is by quick price reductions to something like a prewar basis.

Outside of today's weekly trade review by The Iron Age, which reports business very quiet with buyers apparently awaiting lower prices there was no actual news on the steel shares. But what was lacking in news was more than made up in rumors. Wall street heard from many different sources that both the Lackawanna and the Republic Iron and Steel companies were to pass dividends. The company first named holds its dividend meeting on May 26, while the Republic directors will meet to act on the dividend on May 18.

Independent Steel May Pass Dividend. With the country's iron production running at the smallest figure since 1908, with the last published monthly earnings of the steel corporation, those for March, at the smallest level since 1915 following the first war trade reaction, with the country's steel production considering capacity at the smallest on record and with unfilled orders of the steel corporation back to the level of September, 1915, it would not be at all surprising if the independents passed their dividends. From long experience it has been proved that the independents make a poor showing during periods of trade reaction.

Both call and time money were tighter today. On next Monday payment will be made on the \$230,000,000 Great Northern-Northern Pacific bond issue recently called by the government. On the same day payment of government maturities and interest calls for \$300,000,000. Then, again on the same day the government will make its offering of the new \$200,000,000 nine months 5 1/2 per cent treasury certificates. The total of this financing which must be arranged for by the banks reaches \$730,000,000. Therefore, it is not surprising that call money suddenly advanced to 7 per cent. It would not be surprising if it went to 8 or even higher before the end of the week.

However, this demand upon the money market is merely temporary. The money market is not tight. Every bank has cash on hand and is still of the belief that the bear market is over and that from now on for the rest of this year the price trend of the stock market will be upward.

Cerro de Pasco passed its quarterly dividend of 50 cents today. No Underwriting Syndicate for A. T. & T. Issue. Announcement was made today semi-officially that there would be no underwriting syndicate for the offering of \$50,000,000 new American telephone company stock to shareholders at par. That means that the company will get \$50,000,000 if all of the stock is taken by the shareholders.

During April \$36,315,000 Liberty and Victory bonds were retired by the treasury. Since the government started to go out in the open market and buy bonds for retirement \$37,155,000 of the first loan has been taken out of the market, \$489,346,000 of the second, \$641,193,000 of the third, \$805,840,000 of the fourth and \$426,255,000 of the fifth, or Victory issue. The stock thus bought up and retired foot up \$2,689,000,000, leaving \$1,343,925,000 of the first loan outstanding. The government has retired adds just so much to the market value of the remaining outstanding bonds. With money growing easier a condition certain to be reflected by higher prices for investment securities. This steady retirement of outstanding bonds by the government should be kept in mind. There is nothing in the whole list of investments offering a surer profit than the Liberty and Victory bonds.

While the automobile and steel shares were the weakest today, Mexican Petroleum, Sinclair and other oil shares were either steady or strong. Strength on the stock market last week was attributed by Wall street to letters just sent out on the company's affairs by Pynchon & Co., of New York, Chicago, St. Louis, Milwaukee, London, Liverpool and Paris. The gist of this letter, which runs a couple of thousand or more words, and is filled with information, is in a paragraph showing that during the year ended December 31, 1919, 2.55 per cent was earned for the stock; during 1920 the final surplus was equal to 4.74 per cent on the stock, while this year's surplus is estimated at 7 per cent for the stock.

As soon as the market gets straightened out again insiders in Sinclair are predicting higher prices for these shares.

# Important Issues Labor News Is Check To Buying in Cotton

Washington, May 11.—Decidedly unfavorable weather prevailed during the last week for cotton throughout the southern states, the National Weather and Crop Bulletin announced today. "It was unseasonably cool," the bulletin stated, "and during the first half of the week, and at its close heavy rains occurred in most sections from the Tennessee Valley westward. It has been necessary to replant much cotton and the cool weather has prevented satisfactory germination of the replanted seed; consequently the stands are mostly thin in the cotton fields." "Much cotton has been killed in Georgia, while the crop is reported as making a fair start in the Carolinas; warm rains are needed in the southeastern portion of the belt. Plank is now about two weeks late in the northwestern portion, as a result of the continued unfavorable weather for this work."

Optimism still dominates the most ideal conditions. The winter peach growers of Georgia, notwithstanding the meteorological eccentricities that characterized April, making of that month with its high winds and low temperatures a second March. Leading orchardists pronounce the crop prospect as "good." And what's more it is declared the peaches this year will be of a splendid quality as well as abundant. A larger percentage of growers sprayed and cultivated than ever before. The weather has been ideal for this work. Brown rot and curculio are said to be well under control in most sections of the state.

Opinions of orchardists differ considerably as to the probable size of the crop this season. Before the frosts estimates ran as high as 10,000 carloads for shipment. Since the Georgia department of agriculture reports service, a combination of the forces of the United States bureau of crop estimates and the Georgia department of agriculture, estimates from reports of its correspondents in making this year's crop, that 85 per cent of a full crop, for about 65 per cent of a full crop, in 1920 Georgia produced 2,700,000 bushels of peaches. In 1919 it was 8,895,000, and in 1918 as many as 6,982,000 bushels were grown. Crop potentials on May 1 are indicated in the following paragraphs, to be read in connection with the chart shown above:

**Crop Conditions.** Section A—About 75 per cent of a full crop expected. On the high lands peaches are looking fine. At the time of the April frosts there was so large that the cold did not harm it. Some frost damage sustained by orchards in the lowlands. Section B—Frosts injured peaches only in some sections.

# Condition of Georgia Peach Crop Reported

The above map of Georgia shows condition of the peach crop by sections computed on a basis of 100 per cent representing full, normal crop. The estimates were determined upon reports furnished by peach-grower correspondents of the co-operative crop reporting service for Georgia to John S. Dennee, agricultural statistician, during the last week of April. They show that the condition of the Georgia crop as a whole is approximately 72.6 per cent of normal.

Optimism still dominates the most ideal conditions. The winter peach growers of Georgia, notwithstanding the meteorological eccentricities that characterized April, making of that month with its high winds and low temperatures a second March. Leading orchardists pronounce the crop prospect as "good." And what's more it is declared the peaches this year will be of a splendid quality as well as abundant. A larger percentage of growers sprayed and cultivated than ever before. The weather has been ideal for this work. Brown rot and curculio are said to be well under control in most sections of the state.

Opinions of orchardists differ considerably as to the probable size of the crop this season. Before the frosts estimates ran as high as 10,000 carloads for shipment. Since the Georgia department of agriculture reports service, a combination of the forces of the United States bureau of crop estimates and the Georgia department of agriculture, estimates from reports of its correspondents in making this year's crop, that 85 per cent of a full crop, for about 65 per cent of a full crop, in 1920 Georgia produced 2,700,000 bushels of peaches. In 1919 it was 8,895,000, and in 1918 as many as 6,982,000 bushels were grown. Crop potentials on May 1 are indicated in the following paragraphs, to be read in connection with the chart shown above:

**Crop Conditions.** Section A—About 75 per cent of a full crop expected. On the high lands peaches are looking fine. At the time of the April frosts there was so large that the cold did not harm it. Some frost damage sustained by orchards in the lowlands. Section B—Frosts injured peaches only in some sections.

# Condition of Georgia Peach Crop Reported

The above map of Georgia shows condition of the peach crop by sections computed on a basis of 100 per cent representing full, normal crop. The estimates were determined upon reports furnished by peach-grower correspondents of the co-operative crop reporting service for Georgia to John S. Dennee, agricultural statistician, during the last week of April. They show that the condition of the Georgia crop as a whole is approximately 72.6 per cent of normal.

Optimism still dominates the most ideal conditions. The winter peach growers of Georgia, notwithstanding the meteorological eccentricities that characterized April, making of that month with its high winds and low temperatures a second March. Leading orchardists pronounce the crop prospect as "good." And what's more it is declared the peaches this year will be of a splendid quality as well as abundant. A larger percentage of growers sprayed and cultivated than ever before. The weather has been ideal for this work. Brown rot and curculio are said to be well under control in most sections of the state.

## Loew Vaudeville.

(At the Grand.)  
With Dorothy Phillips, popular Atlanta girl, appearing as one of the stars on the bill, Loew's Grand offers an especially interesting program for the week-end. Miss Phillips appears with the team of Billy Link, Jr., and Dorothy Phillips. The headline attraction is "The Rubber Town Follies," a rural reel. Other offerings include Charles Gibbs, musical mimer, and Eva Arnold, comedienne. The program is a combination of songs and stories. The new big-time Keith vaudeville bill opening at the Loew's Grand Theatre, Atlanta, features a screen romance of stage life, "The Broadway Bubble," is the film headline.

SUSPENDED SCHEDULES  
ON RATES CANCELED

Washington, May 11.—Suspended schedules proposing substitution of a 35 per cent for a 33 1/3 per cent increase in rates and commodity rates between eastern and southern territory and the southwest were ordered canceled today by the Interstate Commerce Commission. The commission sustained the rate increases of 1920 were maintained on the basis of the lowest combination of local rates to and from the Mississippi river crossings or other rate-bearing points. On traffic between the southwest and points in the defined territories located in the eastern group, the commission said, the result of the increases would be an addition over the rates in effect before the general increase of approximately 1 1/2 per cent in the haul between St. Louis and points in the defined territories and which, before the exact percentage of increase depends on the extent to which the local rates now fail to reflect the lowest available combination.

DONATION OF COTTON  
ARRIVES IN GERMANY

Bremen, May 11.—(By the Associated Press.)—The first 150 bales of American cotton donated to the German children's fund by Americans has arrived here from Galveston. The cotton will be converted into clothes for the children. It is reported here that more than 2,300 bales of cotton have been collected and are ready for shipment to Germany.

Use of Poison  
Gasses at Sea  
Will Be Tested

Washington, D. C., May 11.—(By the Associated Press.)—The use of poisonous gases against naval vessels under simulated battle conditions will be tested for the first time during bombing experiments to be conducted off the Atlantic coast beginning June 21, while army and navy aerial forces are co-operating in an effort to demonstrate the effectiveness of aerial bombs against modern naval vessels, the chemical warfare service of the army will be launching a poison gas attack from the air against one or more warships in an attempt to show that the navy must immediately build up a defense against a new and terrible menace.

PRIVATE BANKS  
IN HAVANA CLOSE;  
MUCH UNEASINESS

Havana, May 11.—Three small private banks in this city suspended payments yesterday and another in the city of Camaguey, eastern Cuba, closed its doors today. All had sustained runs by depositors for the last few days, and the larger banking institutions of the islands have had to bear heavy withdrawals, some of the oldest and strongest institutions in this city being affected. One large bank remained open only on Monday night. Approach of the final day of the moratorium, which has been in operation since last year, has added to the uneasiness. General E. H. Crowder, representative of the United States government, has been conferring with the situation with President Menocal and President-elect Zayas, and hope is expressed the announcement of a loan to the United States will be made and that it will restore business morale.
